PORTFOLIO

Sacyr GIS
Inventory management tool for green zones

This system manages the maintenance and conservation of a high percentage of the green areas in *Madrid*, including such representative places as the *Prado Museum Gardens or Columbus Place*. Currently, 250 operators use this software in the *Madrid* City Council.
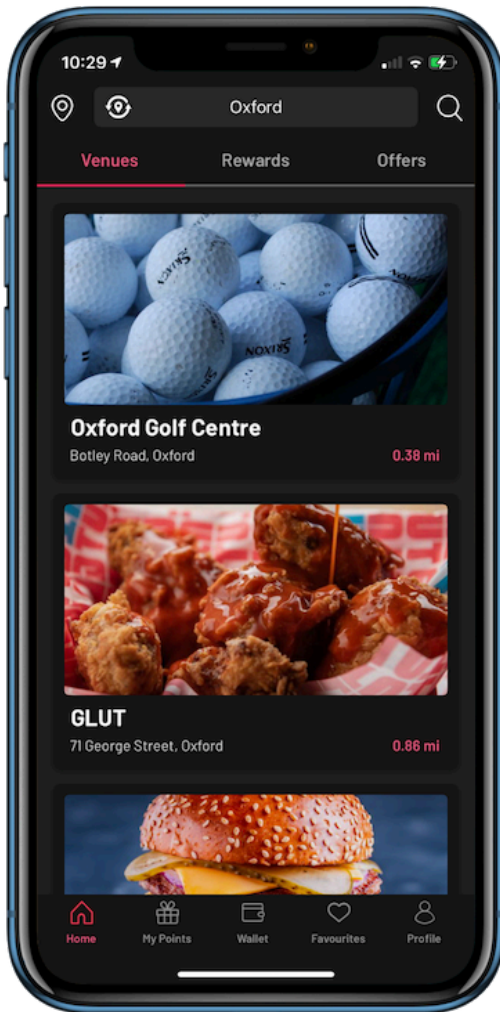

Link: App for private use, you have more information at https://www.sacyrservicios.com/canal-innovacion/soluciones-innovadoras/detalle/-/asset_publisher/AoWLVBoPIL1I/content/gis-herramienta-de-gestion-de-elementos-inventariables

I've been working for more than eleven years in a Geographic Information Systems (GIS) company that has had clients such as the *Territorial Management of the Cadastre* and several *City Councils in Andalusia*.

Technologies: *Laravel, Javascript, PHP, PostgreSQL + GIS extension, qGIS.*

—

2017/2016

The Dealer App

Discount couponing app for some cities like *Cambridge, Liverpool, Oxford and Manchester*. *API* and mobile app development for *iOS/Android*.

It is a very well positioned app in the *UK*. I was part of the development team in its beginnings and developed the mobile apps and connectivity for payments using the *Stripe* platform.

Link: https://thedealerapp.co.uk/

Technologies: *Javascript, Laravel, MySQL, Titanium*.

EPOC Respira

App to help COPD patients stop smoking using a achievement system. It has been presented in several contests around *Spain* obtaining a very good position.
